

## Check Valve - Dart

This Dart Check Valve is ideal for operation in tight well spaces or when a very economical tool is required. The innovative design eliminates the need for a spring, contributing to a shorter overall tool length. By utilizing a special geometry, the dart provides better sealing than a ball alone. Hardened Stainless Steel darts and bodies are available to accommodate ultra-long service life requirements.

| O.D.   | I.D.   | LENGTH |
|--------|--------|--------|
| 1.250" | 0.500" | 8"     |
| 1.500" | 0.750" | 9"     |
